

The Canaveral Port Authority owns nearly 1,500 acres of land, including 780 acres in the uplands adjacent to the deepwater harbor and along the Barge Canal, which crosses Merritt Island, connects the Indian and Banana Rivers, and is part of the intracoastal waterway. Historically, the Port Authority has granted long-term leases to tenants who are responsible for developing and operating their own facilities. Recently, the Port Authority developed the Port Canaveral Logistics Center at Titusville to support its growing cargo and commercial space business.

For more tenant or leasing information, visit www.portcanaveral.com/Real-Estate.
